

PyPDF Loader Test Case Document

Line 1: This PDF is created for testing.

Line 2: The document contains exactly fifteen lines.

Line 3: PyPDFLoader should extract this text.

Line 4: Each line is short and readable.

Line 5: This helps validate parsing accuracy.

Line 6: Text extraction should preserve order.

Line 7: Special formatting is not required.

Line 8: The content is intentionally simple.

Line 9: Page structure is straightforward.

Line 10: Suitable for loader unit tests.

Line 11: Verify line-by-line extraction.

Line 12: Verify document metadata if needed.

Line 13: Ensure no unexpected characters.

Line 14: Confirm successful PDF ingestion.

Line 15: End of PyPDF Loader test document.
